Search / Filter

quick tag filter

quest from quest board
when click → quest details

quick access
only pop up if quest that user accept is going on
Like grab

Home profile work Manage chat profile

click

quest Name

[Hirer profile]

quest list of Apply for Candidate quest

When click

only show on waiting state here

click

Work

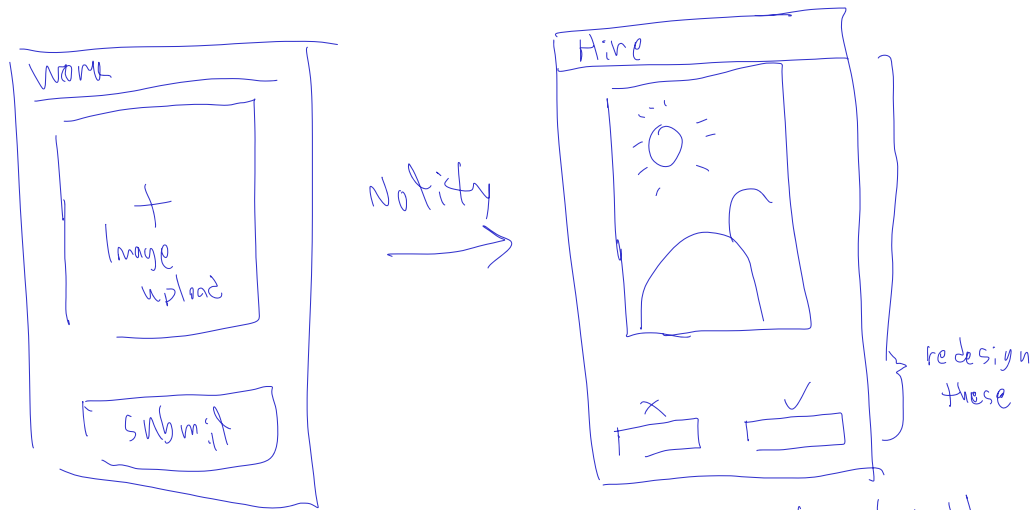

quest Details

+ state here

submit?

if click and doesn't require proof, just end the quest (complete)

if click and require proof, upload image page

then notify hirer, when hirer check this quest the approve page will pop up regardless of where user click check the detail from

Note: report button appear in chat between Hirer, worker

When joining a CANDIDATE require team (only solo now) worker will be prompt with "Apply" instead of join then in the check quest detail of Hirer will be selected
